HUNDREDS HOMELESS AS WATERS RISE IN STREAMS OF TEXAS

Child Drowned and Man Dies From Heart Failure
—Flood Worst in History of San Angelo—
Family Marooned in Tree With Immediate Aid Practically Impossible

SAN ANGELO, Texas, Sept. 17 (AP)—One person was dead, \$1,500 were homeless and damage was estimated—at \$1,000,000 tonight as destructive flood waters swept down West Texas streams. Ralph Stephens, six-year-old son of Mark Stephens, farmer living near De Leon, drowned in the rushing waters of Copperas Creek.

Rip Kincheloe, fifty-five, dropped dead while watching the cloudburst-swollen waters of the North Concho River. Doctors said a heart attack caused death.

CITY INUNDATED

Principal damage was at San Angelo where the worst flood in the city's history swept over much of the business and residential sections. Tonight the water had receded three feet but rains continued here and up-stream, leading to fear that re-spit would be only temporary.

Early tonight three men from Goodland, up-stream from here, made their way across the swaying Santa Fe bridge to seek aid for a woman, her husband and three children marooned in a tree.

MAN MAROONED

The total marooned was ten, including two men clinging to trees. No boats were available and there was no chance of rescue for the marooned until the waters recede. They were considered in grave danger.

Major Dorsey B. Hardeman said tonight that a patrol of twenty-six policemen was on duty to prevent

LILLE TEXTILE STRIKE ENDED

Threat of Street Fighting Makes Another Problem For French Premier

PARIS, Sept. 17 (AP)—The Lille textile strike, largest of the widespread wave, was settled tonight after incorporate negotiations in which Socialist Premier Leon Blum acted as spokesman.

Quickly, however, another threat to France's political peace made its appearance—new activity by the militant "French social party," successor to the Croix de Feu disbanded by Government decree.

GIVEN WAGE INCREASE

The Lille agreement gave 35,000 workers a 6 per cent increase in wages and allowed employers authority over factory delegates named by workers to represent them in collective bargaining.

An end to the Lille strike issued lessened concern of the popular front Government over occupation of factories and mills throughout much of France.

But the new threat spread fear of possible political fighting between Rightists and Leftists.

CITY IS PLACARED

Colonel Francois de la Roque's followers in the "French social party" placarded the city with gigantic posters calling "the popular front has deceived!"

Squads of Leftists, some of them shouting "Down with the scoundrel!" roamed the streets trying to rip down the posters.

Police, fearing violence, were stationed wherever one of the signs appeared. They found La Roque guards also were on the watch and had instructions to call for reinforcements if needed.

Flames Destroy Kelowna Cannery

KELOWNA, B.C., Sept. 17 (AP)—Damage today estimated at \$75,000 was caused by a fire which swept through the plant of the Rowcliffe Canning Co. Ltd. here last night.

Believed to have started in the boiler room, the blaze had destroyed practically the entire frame structure before being brought under control by firemen at 5 a.m. today.

About 150 persons will be put out of employment through loss of the plant at the height of the tomato canning season.

Salinas Police and Lettuce Strikers Clash

Open warfare, punctuated by explosions of tear gas grenades and shells, flared in the Salinas, California, lettuce strike as a force of armed officers routed a mob of 3,000 pickets. The photograph shows the gas bombs as they exploded on the pavement, driving strikers from the vicinity.

Great Damage Feared as U.S. Atlantic Coastline Is Lashed by Hurricane

London Paper Says Italy Plots to Control Palestine

LONDON, Sept. 18 (AP)—Charges Italy has encouraged Palestine Jews to favor Italy as a possible mandatory power for Palestine, replacing Great Britain, were made today in a dispatch to The Daily Herald from Jerusalem. The newspaper's staff writer there said he discovered full details of a plot to further Italian imperial ambitions and "turn the Mediterranean into an Italian sea."

The Italians suggested, The Herald asserted, Jewish collaboration in development of Ethiopia in exchange for concessions including a Jewish break with Great Britain, appointed mandatory for Palestine by the League of Nations. Some time ago, the dispatch continued, Italians conferred with unofficial Jewish representatives in Egypt and made proposals, which the Jews firmly rejected.

ARRANGE MEETINGS

Mr. Henley will also leave Vernon Monday evening to join D. A. Macdonald, city controller and treasurer, at Stearns. Together with Charles S. Henley, they will sail from Quebec on September 26 aboard R.M.S. Empress of Britain to interview holders of Victoria bonds at a large meeting planned in London the first week in October.

It is the intention of the financial delegation to secure consent of the majority of bondholders to accept Mr. Henley's scheme for exchanging \$12,656,221 worth of bonds for debentures bearing an interest rate of 4 per cent or lower.

DISABLED SHIP CALLS FOR HELP

BEAUFORT, N.C., Sept. 18 (AP)—The Cape Hatteras Naval Station radioed the Cape Lookout Station early today that the wind had reached a velocity of eighty miles an hour and was still rising as the season's worst tropical disturbance roared in from the sea.

The barometer had dropped to 28.83 and was still falling.

From Charlotte came reports telephone communication with Manteo, only town of any size on historic Roanoke Island, had been cut off.

For twelve years Mr. Shandley has been a member of the board of directors of the Jubilee Hospital. He was chairman for two years, and is still one of the city representatives on the board.

Mr. Shandley will be duly sworn in when his commission arrives from Ottawa, replacing Judge Peter S. Lampman, of the County Court, who has retired.

In his official capacity he will be a member of the Victoria police commission.

DAMAGE EXPECTED

The hurricane whipped the narrow, sandy North Carolina Banks and threatened huge destruction and damage to a wide section of the coastline.

No casualties had been reported up to midday (Pacific Standard Time) fears were felt for residents scattered along the coast as well as small craft, which might have been caught in the heavy blow that drove thunderous seas before it.

A freighter called for assistance after radioing steam was lost.

After radioing steam was lost, the freighter called for assistance after radioing steam was lost.

Mr. Shandley will be duly sworn in when his commission arrives from Ottawa, replacing Judge Peter S. Lampman, of the County Court, who has retired.

Says Party Politics Are Responsible for Provincial Troubles

H. Despard Twigg, Secretary of Island Association, Maintains Party Lines Only for Federal Policies—Addresses Members of Elks Club

BRITISH Columbia's troubles largely began in 1903, when party politics were introduced into the administration of the affairs of the Province, declared H. Despard Twigg, secretary of the Vancouver Island Provincial Association, addressing members of Victoria Lodge No. 2, of Elks, at their clubrooms last night.

Mr. Twigg said the year 1903 was an also important date in the history of Vancouver Island, because it then became a part of the political machine with the result the Island had not had its fair share of the useful expenditure based on an equitable percentage of the revenue collected. He was discussing the "Future of Vancouver Island" and used the political set-up as a background to the position the Island now occupies in relation to the Mainland.

MATTERS OF POLICY

"In Federal politics you can have definite party lines on matters of policy. Big issues must be settled by the will of the people," observed Mr. Twigg in extending the discussion of politics provincially. "In provincial politics why should parties be permitted to divide on questions of so-called policy where such does not exist? For instance you cannot split the country on the matter of education, and who wants to divide on questions of law and order. Financially we must make ourselves on one side or the other. Provincially there is no such thing as a genuine party line," he said.

Mr. Twigg advanced the argument that in 1903 the political balance as between the Island and the Mainland was fairly even. "I don't think anyone will deny that the balance of power is now very definitely with the Mainland—where the preponderance of voting lies, so that the policy we have to day is the policy of promises and those promises are made where the weight of voting is." As a consequence of that situation, Mr. Twigg maintained, Vancouver Island has been unable, for many years past, to get that consideration to which it was entitled.

THE ASSOCIATION

Explaining the purpose of the Association of which he is secretary, Mr. Twigg definitely declared his association did not intend to create a new party, but to educate the people of the Island "on where they stand in relation to the rest of British Columbia." The Association was not in any way interfering with the

relationship of the Island to the mainland and it was not attempting to interfere with any political party. He explained, in brief, why it was impossible to constitute a Crown colony.

Mr. Twigg described the remaining assets of Vancouver Island as "wasting assets," referring mainly to the timber industry. He had been informed, he said, the Island would be completely denuded of its merchantable timber within the next twenty-five years. "What will be the future of the Island?" he asked.

FUTURE REVENUE

"It must be realized by the people of this Island that we have only two sources upon which we can build our future. Those sources are climate and scenery—and how are you going to turn them into cash?" he asked. "There is one sure way and that is by securing the right to resettle to nothing to the success of the administration. If that right could be secured, we would be under a separate provincial administration—we would have this Island swarming with people who would want to live here and who would build thereby creating work for artisans.

He touched on many other matters concerning the Island. He mentioned the cost of the P.G.E. land settlement schemes, running into millions of dollars from which the Island received no benefit, directly or indirectly, but for which the people of the Island had to pay, in taxation, about a quarter of the amount. He quoted figures concerning gasoline and motor license collected on the Island and then mentioned the amount expended, which he declared was far less than the revenue.

QUESTION OF ROADS

Mr. Twigg fully outlined the question of roads and drainage. Millions had been expended on the Mainland and mentioned the Okanagan District as having approximately as many government built roads as the whole of Vancouver Island. He mentioned the exemption of public owned buildings from taxation in Victoria, amounting to an assessed value of \$3,000,000, for which the Capital City had not received any consideration.

The speaker said he would predict if a plebiscite were placed before the people of Vancouver Island there would be 75 per cent in favor of change from the present condition. He said there was a growing demand in all parts of the Island for a complete change.

PART OF SPAIN

Trinidad Sept. 17 (P).—An explosion in Trinidad Leacholds Refinery today killed one man and fatally injured two others.

Three more barely escaped as hot oil gushed from a broken pipeline sprayed the plant and burst into flames.

The building caught fire, but volunteers and firemen controlled the blaze after only slight damage had been done.

A company statement said the explosion was caused by excess pressure on a five-inch plug of the pipeline.

The diner found a fly in his soup and said crossly: "Waiter, what is this?"

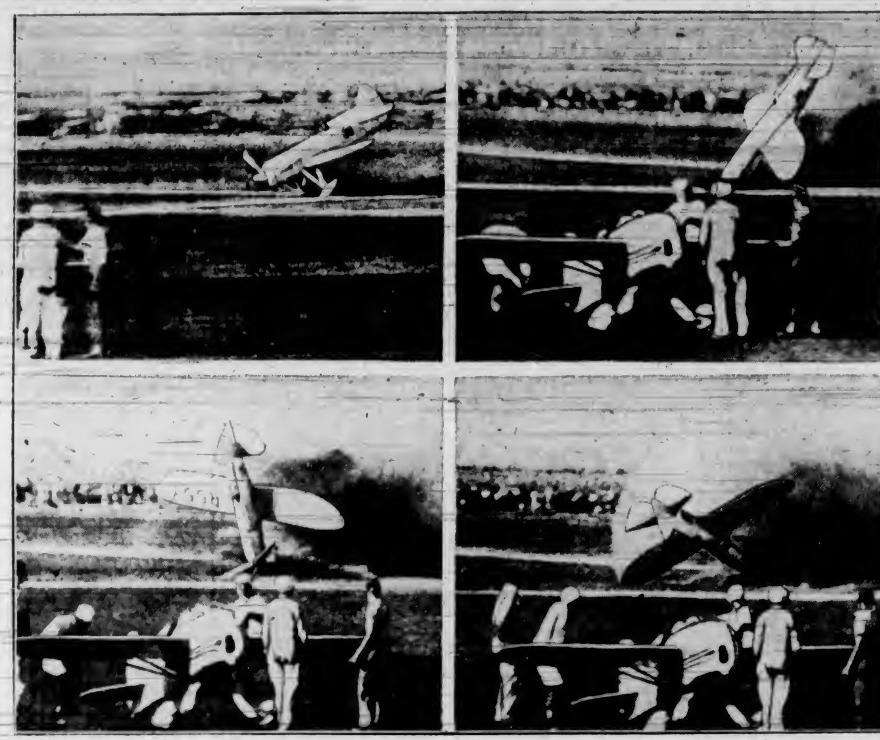

Waiter: "That, sir, is a Vitamin Bee."

Amazing Pictures Snapped as Plane Crashes

—Central Press Canadian Photograph.

This is the scene that presented itself to the horror-stricken gaze of the thousands of spectators who attended the national air races at Los Angeles. In landing his speedy airplane, Joe Jacobson appeared to be racing along the field in safety, when his plane suddenly nosed over, crushing the flyer beneath the debris. In these four consecutive action pictures of the crash, the plane is seen starting its almost fatal tilt while

at terrific speed.

BOYS, GIRLS GIVEN PRAISE FOR CONTESTS

Young Stock Judges and Showmen Pass Before Critical Adjudicators

JUDGING EVENT IS WON BY LOCAL GIRL

Turner, all of the Cadboro Bay farm,

too, one, two, three in the class for beef cattle exhibitors who were non-members of clubs.

In each of the competitions,

money prizes were awarded the first

six winners in each section. Nearly

\$130 was distributed in this manner.

PLANS COMPULSORY TRAINING IN FRANCE

PARIS. Sept. 17 (P).—Pierre de

Zarnauds, Under-Secretary of

State, announced today he intended to introduce a bill providing compulsory pre-military training for French youths.

The programme designed to build the manpower of the nation was outlined in the newspaper Paris-Soir.

GORED BY WILD STEER

Under the critical eye of two

judges, youthful stock

judges and showmen were put

through their tests at the Provincial

Exhibition yesterday and, ac-

cording to the adjudicators, were

the best in the competition. The boys

and girls' competitions, two sections

were finished yesterday, with the

third—halter-making event—set

for this afternoon at 2:30 o'clock.

Both T. G. Stewart, Vancouver,

of the Dominion Livestock Depart-

ment, and R. G. Sutton, New West-

minster, of the Provincial Livestock

Department, were loud in their

praises of the young competitors.

"It was the closest contest I have

ever seen," said Mr. Sutton. High

quality judging and showmanship

was displayed by the juniors, the

judges said.

SCORERS MANY POINTS

In the stock judging event, Olive

Turner, Cadboro Bay, competing in

the class for boys and girls under

sixteen years of age, secured a total

of 283 points out of a possible 300,

to score more points than any of

the other competitors.

The youngsters judged any three

of the following animals: Heavy

horses, beef cattle, dairy cattle,

sheep and swine. Twenty minutes

was allowed for competition in each

class.

Don Richardson, Sardis, won the

class for under twenty-one years

and over eighteen, with 271 points.

Nell Crossman, Winnipeg, was six

points behind, with 265 in this class,

while Murray Turner, Cadboro Bay,

won third place with 257 points.

YOUNGER CLASS

Another member of the well-

known stock-displaying Turner fam-

ily of Cadboro Bay, Rosamund, won

the class between sixteen and eight-

teen years with 273 points. A Lad-

der boy, Tom Klinkhamer, with 270.5

points, was second, and Jack

Morison, Parksville, was third, a half

point behind Tom.

Olive Turner, also of Cad-

boro Bay, was given high praise for

her excellent showing in the young-

est class. She was fully fifteen

points ahead of Rosamund Smart,

Seven Oaks, who tallied 248 points.

In third place in the under sixteen

years class was Harold Brown, from

Brandon, with 247 points.

There were twenty-two entries in

all in the stock judging competition.

SHOWMANSHIP DIVISION

In the cattle showmanship con-

test, judges declared they had a

hard job declaring the winner. This

competition was open to children

under eighteen years of age. There

were twenty entries in the first class

and twenty to be chosen by mem-

bers of dairy clubs and Paul Hoole,

Royal Oak, was awarded first place

over Lillian Williams, Fort Langley,

and Lawrence McDonald, R.R. 1,

Langley, who were second and third,

respectively.

Dairy cattle showmanship for

non-members of dairy clubs was

won by Leslie McRae, Ladner.

Lloyd Pickard Wetaskiwin, Alta.

was second, and Harold Brown,

Brandon, third. Murray Turner,

Rosamund Turner and Kathleen

VESSEL WAS OFF COURSE IN WILD SEA

Single Survivor of Pourquoi Pas Tells of Wrecking Of Ship

BOW BROKE OFF POUNDING ROCKS

REYKJAVIK, Iceland, Sept. 17 (P)—A mistake in navigation on the part of the experienced officers in command was blamed tonight for the foundering of the French ex-

ploration ship Pourquoi Pas in which thirty-nine lives were lost, including that of Captain Jean Char-

cot.

The vessel went on the rocks and sank Wednesday with all hands, save one. Eugene Goudeau, a quartermaster who tonight told of the events leading up to the disaster.

Partially recovered from exhaustion resulting from four hours in the wild sea before he was cast up on shore, Goudeau said the vessel was off course. Officers, he said, were frantically trying to get bearings when the ship ran onto the jagged rocks of Iceland's bleak coast.

BROKE IN TWO

Goudeau said the bow was cleanly broken off and the fore-mast snapped off to the deck.

Captain Le Conniat ordered all to try and save themselves. One by one the men leaped into the raging waters and all save Goudeau were either drowned or dashed to death on the rocks.

Goudeau said when he jumped he saw Charcot still standing on the bridge with Captain Le Conniat.

He and another sailor climbed on a floating gangway, the survivor related, but the waves soon washed his comrade to his death.

Goudeau said he lost consciousness for about four hours and remembered only that he woke up in a farm house to which he had been carried from the beach where he was cast up.

The twenty-two bodies, including that of Captain Charcot, already recovered, will be brought to Reykjavik tomorrow.

STEFANSON'S TRIBUTE

The Canadian explorer, Vilhjalmur Stefansson, who hurried here, said of Charcot:

"His death is one of the greatest losses that could happen in the field of exploration. Much valuable information obtained on his last voyage probably has been lost."

A French destroyer was steaming toward Reykjavik tonight to return the

Ecclesiastical Art Makes Fine Display At Memorial Hall

Elizabethan Flagon, Recently Presented to Cathedral by Lord Mayor of London, Is Nucleus Of Interesting Exhibit of Objects

ENTERING round the beautiful Elizabethan fifteen-inch high silver-gilt flagon recently brought here by Sir Percy Vincent, Lord Mayor of London, and presented to Christ Church Cathedral as a permanent loan from the rector and council of the ancient church of St. Mary Woolnoth, another fascinating exhibition of ecclesiastical art was on view yesterday afternoon and evening at Memorial Hall.

Deaconess Robinson was chiefly responsible for the arrangement of the display, which was a great improvement over previous years, owing to the grouping of the objects. For instance, in the section of the collection in which the Elizabethan flagon was found, were two other flagons. One, very similar in form, of chased silver, was given to the Cathedral here by the Hudson Bay Company, and a second, a narrow-necked silver flagon, has also been in general use at the Cathedral for many years.

COMMUNION SETS

Very interesting were the four portable communion sets and three portable fonts. One of the pocket communion sets belonged to Bishop

Hills, first Bishop of Columbia

Presented to him by his communion

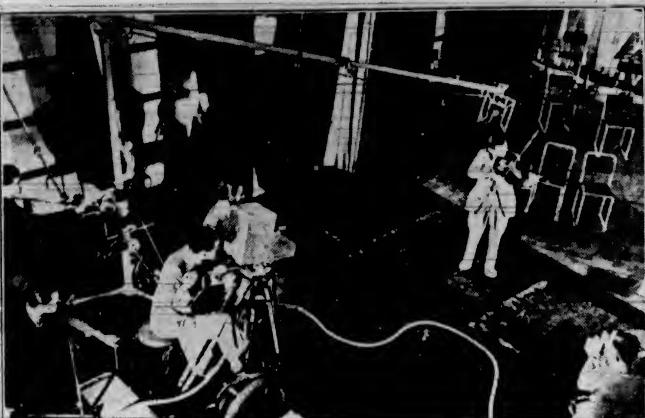

at St. Peter's, Leeds, December 25, 1844, this has its own leather case, and consists of a tiny chalice and paten. A second, exquisite little Georgian set was lent by Rev. F. O. Robathan, of the Cathedral here; and another, together with the Pyx used for communicating the sick with reserved sacrament, was lent by Rev. J. Payne. The fourth presented to Rev. Philip Hayman, now of Victoria, by Miss Trimmer, a young cleric, was a paten and a tiny silver flagon, and was originally presented to Miss Trimmer's father in 1874 by the poor of Wanstead.

PORTABLE FONTS

The portable fonts showed a much wider range of size. The smallest was a silver pocket font for use at sea, lent by Rev. G. H. C. Smith, by Rev. J. Payne. Miss Carlisle lent the beautiful font of dark green and brown serpentine stone, which was used in India in the sixties by Rev. W. F. Fennell, one of the army chaplains of the time. Still another small font was beaten brass, on an oak base, this being lent by Rev. Dr. Rose.

In the collection of articles lent by the Cathedral was a plaster copy of a plaque depicting the Lord's supper from an original worked by a young Seattle artist. This was

Television Established in England

This graphic picture gives an excellent bird's eye view of the inside of one of the television studios at the British Television Station at Alexandra Palace, London. An eminent violinist is performing for the television, while two Emetron Instantaneous Television Cameras are trained on him. One camera is transmitting the programme, while the other is ready to "fade in" for a different shot.

TWO WITNESSES GIVE TESTIMONY

Case of W. M. James, Charged With Wounding Wife, Will Be Continued Today

OLD BIBLES

A separate table was allotted to a collection of old prayer books and Bibles, some of which were of great historical interest. Among them was a New Testament in Latin, dated 1714. Inscribed in the flyleaf was "Payne, His Book," and the book was lent by Rev. Mr. Payne, who said that it had remained in the same family for more than 300 years.

A prayer book dated 1727 was given to the Cathedral by Miss Amy Wakefield. This interesting old volume, which has a wood engraving of George I in the front, is adorned with fifty-five historical illustrations, some of which were apparently colored by a child's hand long ago. Mrs. Bale lent an oak and chased leatherbound Bible which has several names inscribed on unprinted pages inside, one page being almost filled with the name of Am. Barlow, 1710.

Lent by Commander G. N. Kidd was an old Spanish oil painting on wood of St. Nicholas; an antique baptismal shell; a carving, on a knot of wood brought from Jerusalem; of Gethesamene, a carved rosary from an ancient tree near Gethesamene, and an imitation altar, the handiwork of Indians of South America, carved in bamboo pith.

PROCESSIONAL CROSS

Nearby was a handsome ten-foot high ebony and silver Processional cross given by Ormond Plythe of London, and brought here by the Bishop of London when he came to officiate at the laying of the cornerstone of the Cathedral. There was also a second Processional cross.

On the desk nearby was a finely embroidered bursa of ancient design worked by Miss Ravenhill.

EMBROIDERIES

The collection was rich in beautiful embroideries and other examples of needlecraft. Among these were specimens of bursa and vestments made by Mrs. R. Scott-Montgomery, and lent by St. Stephen's Saanich. Rev. J. S. A. Bastin, of St. Stephen's, also lent his own set of bursa, vestments, and ministrum, all made by Mrs. Burdette, of Bristol, England. The burses represented the church's four seasonal colors, purple for Lent, white for festivals, green for Trinity and red for saints and martyrs. These colors were found again in the set of linen vestments lent by Rev. J. Payne. Made by St. Dunstan's Society, London, these were specially designed of serviceable materials for traveling missionary purposes.

From the Cathedral was a full set of Lenten array, including frontal, bursa and stola made by Warham Guild, England, and sent out for the original ecclesiastical exhibition arranged by the Archdeacon's Lodge, also the bishop's cope of very heavy white brocade, with which was shown the finely-worked stole made by Miss Ravenhill. In the same railed-off enclosure were some examples of fine wool work in petit point. Worked by Victoria ladies, under direction of Mrs. C. D. Schofield, this comprised two kneelers, several seat mats, and several cushions from the Cathedral, one of them last being from the Bishop's throne. A beautiful example of wood carving was found in the faldstool carved by Mr. Gibson, of Shawnigan Lake.

OTHER DETAILS

St. Barnabas' lent a chasuble made by a worshiper of the church, and a white festal stole, made by a girl whose hands were crippled with rheumatism; Miss Dickman lent a Spanish seventeenth century ornament of gold and pearls; Miss Freeman lent a nineteenth century French wooden rosary; an eighteenth century black and gold rosary; a rosary and a chalice, as well as Spanish peasants, and some two Spanish clerics. Much interest was shown in the Abyssinian exhibit, lent by Miss Carlisle, this including a small Processional cross, books printed in Coptic, a scroll also printed in Coptic, and a carved wooden tablet.

Near the main entrance hung a life-size oil painting of Archbishop Roper. This was done by J. Carrier, of Victoria, in 1915, and was a gift to Bishop of Columbia, and was lent by Rev. J. S. A. Bastin. Another of the paintings (by Mrs. W. L. Loveland) showed Bishop Schofield demanding entrance to the Cathedral at the time of the consecration of the new Cathedral, in 1929.

HELD UP IN ROYAL CITY
NEW WESTMINSTER, B.C. Sept. 17 (CP)—Police today were searching for two men who held up T. Pappas of Vancouver here last night and robbed him of \$8.

UP-ISLAND LUMBERMEN WIN SPORTS

Duncan Loggers Score in Events at Fair—Title Is Defended Successfully

MAY BECOME ANNUAL FEATURE AT WILLOWS

Burly Duncan loggers walked off with most of the prize money in the loggers' sports held yesterday afternoon at the Provincial Exhibition.

A crowd of about 350 persons witnessed the five events, which were under the direction of J. W. Auchanach, Duncan.

In the feature events, the men open sawing and chopping, Duncan took both events.

Allan Heyd, British Columbia sawing champion, successfully defended his title against a field of six competitors.

He saved through a twenty-four-second log in one minute fifteen seconds. In the chopping contest, Henry Robinson, also of Duncan, used his double-edged axe with a strong, steady swing, to win over a field of six. They chopped blocks measuring twelve by twelve inches. First prizes for these events were \$25.

NOVICE CONTEST

Allan Heyd chopped through a ten-by-eight block one minute and thirty-three seconds to win the novice sawing contest, while in the novice sawing, F. Golde, of Duncan, was an easy winner.

Mrs. Harry Mattin, Cowichan Station, narrowly won out over Miss Kate Holman, Westholme. Miss Holman and Mrs. Mattin gave the crowd quite a thrill as they demonstrated their ability with the long woodsman's saw. Mrs. Mattin, of Brentwood Bay, was third.

Over \$175 in prize money was distributed to the winners, and officials of the fair were highly pleased with the sports. It was said they may become a regular feature of the Provincial Exhibitions held in Victoria.

THE WINNERS

The complete prize list follows:

Men's open sawing—1. A. Heyd,

2. F. Golde, Duncan.

3. C. Veerman, Jordan River;

3. Martin Cooper, Brentwood Bay

Men's open chopping—1. H. Robinson, Duncan.

2. F. Vaux, Duncan;

3. G. Deuchars, Duncan.

Novice sawing—1. Allan N. Heyd, Duncan; 2. G. Deuchars, Duncan;

3. J. Walker, Duncan.

Ladies' sawing contest—1. Mrs. H. Mattin, Cowichan Station; 2. Miss K. Holman, Westholme; 3. Mrs. M. Cooper, Brentwood Bay.

HUNDREDS HOMELESS IN WESTERN TEXAS
Continued from Page 1
possible looting from deserted homes.

Three hundred residences were swept into the river, water covered another 200 houses, and a swift current ranging from twelve to twenty-five feet deep was rushing through part of the business section.

HOSPITAL FLOODED
Water stood shoulder-deep in the basement of a hospital where there were 125 patients. They were reported in no danger since there was an emergency power plant in operation and an ample supply of food and water.

Refugees were housed in churches and schools in elevated parts of the city under Red Cross direction.

Giant Hog at Calgary
CALGARY, Sept. 17 (CP)—A giant hog attracted attention at the Calgary livestock yards today. The animal turned the scales at 930 pounds. It was raised on the farm of I. Haskayne, of Gleichen, Alta.

A DEBT COMPLEX

The National Employment Commission has made some recommendations that have been approved by the Dominion Government. One of these is to stimulate the construction of houses and the repair and renovation of existing dwellings. Needless to say what is proposed means a contingent liability on the taxpayers. In the first place, banks and other "approved lending institutions" are to be invited to lend money to property owners for "repairs and improvements of all kinds on dwellings." The new thing is that, if the lending institutions are willing, the borrower is accepted as a "moral risk." In other words, he gets the money on his own note, without backer or lien. The sum is to be repaid in one to five years, at 5 per cent interest.

By this plan, if the banks or lending institutions lose money, they are to be guaranteed up to 15 per cent of the money, and the guarantee is by the taxpayers. Under the plan the maximum of loans is to be \$50,000,000; of which, in the event of repudiation by the borrowers, the taxpayers will pay \$7,500,000. This plan is to become effective by Act of Parliament, but lending institutions are invited to anticipate Parliament's action, something they are unlikely to do. There are other plans for the building of houses. One provides for co-operation with Provinces and municipalities for the erection of "new houses and housing units in urban areas, to be rented to persons in low income groups." Another broadens the Housing Act "to make it easier for persons in the middle-income group to build." This is an attempt to make the Housing Act effective; it has more or less been ignored in all quarters up to the present.

The plans are benevolent, but they are an invitation to property owners to go into debt and follow the Government's example. That is their bad feature. In other words, the Government wants people to borrow up to \$50,000,000 and pay interest at the rate of \$2,500,000 a year in order to create employment. What about those people themselves? They may not wish to go into debt. Then again, the Government stipulates for the payment of 5 per cent interest, while it is borrowing itself at lower rates. The invitation is to property owners to load themselves still further with debt, both in connection with the repair and the housing programmes. Statesmanship has lost all sense of proportion in what makes for a happy and contented people, for one of the prime elements in that making is adherence to the gospel of thrift. It is ceasing to practise this gospel that has landed both governments and people where they are. It is its recovery that will lead to normal times.

MAN-MADE DESERTS

The recent drought conference at Ottawa between Prairie representatives and Federal authorities has resulted in some relief being promised. For instance, an agreement has been reached between the Dominion and Saskatchewan Governments which provides the former will assist in the removal of stock to feeding areas free of freight charges to the owners, and the removal of low-grade cattle to abattoirs. The Government concerned and the railways are to share the freight charges. Then the Federal Government is to assist the Province in providing for the purchase and shipment of feed and fodder for livestock remaining in the drought area. Funds are also to be provided to take care of direct relief.

These plans are all very well, but no programme has been devised, so far, for meeting the condition of drought by advance measures. There is no appropriation for the building of dams and reservoirs for the conservation of water, no proposals for afforestation; no provision to prevent cropping the same land year after year. In the Middle-West of the United States and in South Australia there has been heavy havoc to the land because of drought, and this, coupled with conditions in certain sections of the Prairie Provinces, should direct public attention to the frequency of recurring calamities in different parts of the world. Some information on drought's effect on land, of wide interest, has been made by Mr. E. P. Siebbing in a letter to The London Times. He says:

"If the position on the southern borders of the Sahara, the present-day type example, is examined, it is apparent that the desert is advancing southwards, covering over fertile lands with an ever-deepening layer of sand; the advance being almost entirely due to the improvident habits of man and his flocks. That this method of livelihood of the people has been long practised does not imply that, with increasing population and herds, it is an economic one, or even a permanency. It would, however, be inaccurate to designate the increasing desiccation of the inhabited lands on the southern frontier of Sahara as due to 'drought' in the ordinary sense appertaining to this word. A study of the conclusions here appears to show that, with the excessive utilization of the soil and water supplies, at first decrease, then become intermittent. During the latter stage the soil is made over to the stock grazier, being no longer sufficiently productive for agriculture." Under excessive grazing and pasture, accompanied by fire, the vegetation is gradually reduced to the condition of open savannah, the rainfall disappears, the water-level sinks lower in the substrata, and the desert has advanced another stage. My point is that, the stage arrived at in parts of America and South Australia appears to represent the intermediate stage of progression to permanent desert conditions. Water supplies have become intermittent, accompanied by flood, tempest and tornado. Each year will witness this stage progressing with greater intensity, until a point is reached at

which its arrestation becomes impossible. In the interests of the farmers and stock-raising in both America and Australia it would, it may be suggested, be advisable to give up the use of so misleading a term as 'drought,' which, in common parlance, implies that it may be expected to be succeeded by wet years or a wet cycle. If the above interpretation of the stages of progression of these man-made deserts is correct, there can be no succession of wet years on areas on which the water supplies have become definitely intermittent (unless man takes a hand to stem the progress of the desert conditions); or on areas which have already reached true desert conditions."

TOWN PLANNING

The Oak Bay Council has begun to give serious consideration to certain of those problems that inevitably arise in connection with the physical growth and expansion of an urban community. The principles which should govern building progress obviously relate to such matters as the width of the streets, their capacity to take care of traffic, the purposes for which the buildings are designed, the superficial area of the ground they occupy, their height, their lighting by windows, their distance from one another, and certainly not least, the amount of direct sunlight as well as mere daylight that penetrates into their interiors. The amount of daylight and sunlight to be enjoyed by the inmates of buildings is, of course, determined by the factors first mentioned.

At first glance it might be thought premature to make regulations to govern these matters, but it should be tolerably clear even to a casual observer that not only in Oak Bay, but elsewhere in the vicinity, in too many cases, houses have been built, and are being built, which are much too close together for the health and well-being of those who are closely related to plenty of air, daylight and sunlight, to say nothing of privacy, convenience, or beauty.

As it happens, the London County Council has been busy with problems arising out of the proposed division of the county into three zones, one in which business and industry predominate, another in which multiple dwellings are numerous, and third built up chiefly of single dwelling-houses. In an article in The London Spectator of August 28 will be found some of the recommendations of the British Department for Scientific and Industrial Research. Its Bulletin on the Penetration of Daylight and Sunlight into Buildings contains some interesting bits of information and advice. For example, the Department has laid down a standard "angle of light interference."

It is clear that on an unobstructed prairie a dwelling may receive uninterrupted sunshine all day long. In a town or city the sun is, at times, obscured by nearby buildings. If the "angle of light interference" is to be observed, then certainly the higher the next building is, the farther it must stand. The interval, it appears, should be about two and three-quarters times the height. Why? Because the "angle of light interference" is set at 20 degrees, which means that a dwelling of average dimensions, correctly orientated, should receive direct sunlight except when the sun is within 20 degrees of the horizon, which will be at a time when the light is of least value. To satisfy "reasonable users," the sky should be visible from the height of a table top at any point in a room.

Victoria and the surrounding municipalities are not troubled with the skyscraper nuisance, and we enjoy bright sunshine for many months of the year, but there are some periods of cloudiness when every gleam of sunshine, indeed, every ray of daylight, is precious. We form here, and should remain, a predominantly residential community, and this fact calls for especial care on the part of the municipal authorities in timely town planning.

THE SUREST WAY

In spite of all the talk of war, the surest way of being safe in North America seems to be carelessness or a moment's lapse of watchfulness behind a wheel on the highway—Kingston Whig-Standard.

Note and Comment

By Anon.

Scientists concerned with the study of cosmic rays sent up a number of miniature balloons from a point in the Eastern States the other day. The balloons, six feet in diameter, emitted constant wireless signals automatically disclosing their position at each second of the flights. They rose to a height of some fourteen miles, or in the neighborhood of 80,000 feet above the earth's surface, and gave a perfect record for every foot of the way.

Something very like that may be done to be along the line of Canada's new airway from the Atlantic to the Pacific, not for studies in cosmic rays, but to determine wind direction and wind velocities at various altitudes along the route.

Presumably some experimentation has already been carried out; else no fixed route on the ground would have been chosen. Much yet remains to be done, however, if Canada is to take whatever natural advantages may accrue from prevailing weather conditions.

Physicists know that surface winds grow in velocity and change direction as altitude is gained. It is common to find a surface wind of fifteen miles an hour increased to forty-five miles an hour at 6,000 feet, and at that altitude to be blowing from an almost opposite direction. A north wind on the ground may, and probably will, become a south wind at 10,000 feet. Clouds moving in opposite directions are visible signs of such conditions.

Surface winds vary clockwise with the altitude. All this, with the exception of a constant wind, appears to govern their courses over a certain altitude. All this, of course, was known during the stimulus given to aviation by the Great War, and much dependable and concise knowledge has probably been added since then.

The point, however, is that Canada has three long shores at which the sea meets the continent with a local set of conditions at each sea-board; a great mountain ridge at the Rockies, once more responsible for local conditions of wind; and huge rolling plains, giving vent upon a large lake region.

The question is what will be the more or less changing variation to expect from winds of the upper air over the whole region, and for every month in the year? The answer to that question will not be written in a day, nor yet in a year, but steady and comprehensive study will have to be made.

Atways of the present have depended largely on weather reports, based on meteorological services dealing with surface conditions in patches of 100 square miles. Airways of the future may have to take into account the possibility of "trade winds" in the stratosphere, which might give favorable winds over half a continent for months on end, or their reverse. The whole behaviour of air currents at the higher altitudes will have to be studied, if an intelligent use is to be made of those levels in flight.

There is another, and still more interesting, question in the consideration of the upper reaches of the air. The earth is a spinning body. Close to the earth's surface, the atmosphere moves with the ground, as if geared to it. Further up there is a slip, as if the clutch, as in a motor, were less securely meshed. At some point, in theory at least, an object could remain suspended in the atmosphere while down below it the ground raced away from the object at a tremendous speed.

This is the consideration of speed entirely removed from engine power, but as part of the natural forces of the earth. It opens up vast possibilities for man, when he has had time to weigh the facts, and investigate many factors still unknown to him.

The answer to many of these questions lies in a correct and continuous study of the behaviour of winds, or their absence, at various altitudes. Stratospheric balloons, both manned and unmanned, have made a beginning in this form of research, but only a beginning. Who can tell what results may yet come from a more developed study of the universal ocean, the air?

Air commerce has created new towns on the continents of Europe and America. Places isolated from trade routes on the ground have been brought into the forefront with the development of air terminals and airports. Air terminals are much more than occasions for mere civic pride. They are actual points of contact with the world's air-ocean.

It is nice to know that Canada is moving steadily forward in the establishment of an airway. Victoria should see to it that she is an established port of call on that route; both to serve legal needs and the pleasure of the airman.

UNIVERSITY TO HAVE PROPERTY

B.C. Government Deeds 271

Acres of Land at Point Grey to Institution

Acting on the advice of the Provincial Secretary, the British Columbia Government handed over 271 acres of lands adjacent to the University of British Columbia, yesterday, to that institution. The property, formerly leased to the Faculty of Agriculture at an annual rental of \$1, contains extensive buildings, used in connection with agriculture.

The order-in-council settling out the transfer of Lot 4,005, New Westminster Land District, stated it had been decided in the public interest to place the 271 acres in question at the disposal of the University.

Title to the property will be vested

in the University of British Columbia forthwith, with cancellation of the present leasehold arrangement. Farm buildings and demonstration plots are included in the gift.

Red Cross Campaign Voluntary Workers Begin Appeal Today

Preliminary Publicity Asking for \$15,000
Victoria Branch and Provincial Division Be-
ing Followed by Personal Solicitations

"A" DIVISION went into the field yesterday in the \$15,000 campaign of the Victoria Branch and the Provincial Division of the Canadian Red Cross Society in the city.

TWO BRANCHES JOIN

For the first time in hard times have lifted for many people, the Red Cross decided that it would be fatal to delay its appeal any longer, in view of the pressing needs. Because they believe that Victorians would prefer to make one large donation instead of a number of smaller offerings, the Victoria branch and the provincial division have joined together in this campaign.

Today, voluntary workers, under the direction of Rev. Cecil S. Quainton, Dean of Columbia, are preparing to follow up these folders by personal appeals.

NOT ONLY CAMPAIGN

This is not the only campaign the Red Cross is staging in British Columbia this year. Officials at the provincial headquarters here said that Victoria, on account of its favored position, had been chosen to lead off in a series of campaigns "at all ends on Victoria." If our hopes are realized in Victoria, then we can expect the rest of British Columbia to follow suit."

This is the first time in four years that the Provincial Division and the Victoria Branch of the Canadian Red Cross Society have appealed to the people of this city for financial assistance.

Year after year during the depression, knowing full well the heavy burden the people bore, they put off their appeal for funds. During all that time, they depended upon the voluntary subscriptions of generous friends and the \$22,000 which the Vancouver Community Chest has allowed them during the past three years. But it was not enough. Appeals from all over the province have been pouring into the headquarters of the organization; appeals for medical aid; for hospitals in the outlying districts, where people have to journey often hundreds of miles to get doctors for nurses; for a hundred necessities to make life happier and brighter for so many people. But the Red Cross could do comparatively little. Their budget was entirely inadequate to meet the growing demands.

Rebels Escort Captured Loyalists to Prison

This Dramatic Picture, Obtained at the Risk of the Photographer's Life, Shows the Capture of Spanish Government Forces by Rebels Who Stormed the Crest of a Hill Near Somosierra, Spain. The Captured Men Are Being Rushed Away Either to Prison or the Firing Squad—With the Chances in Favor of the Firing Squad. Observe Bodies on Ground of Rebel Soldiers Who Have Fallen in Action.

the show. These are the Shirley Temple and the Balleiro's Surprise. The former was named by the young actress while in Victoria recently, while the latter is an importation from Holland. The Shirley Temple flower is mauve-pink in color, and the Holland dahlia is pure white. Both are hybrid cactus.

Angus McKay, who won first prize in roses, was awarded leading honors in the decorated table section with his display of Baby Royals. The centerpiece was trimmed with miniature fern. All three of the leading tables used Baby Royals.

BASKET SECTION

Latest Creations in Gorgeously-Hued Flowers on View at Exhibition

Every type of dahlia which can be produced in this section, and every type in the basket section, and every type of dahlia was represented. These included pom-poms, charmin types and the large sized dahlias.

The largest single amateur exhibit was that of M. O. Mayhew. Grown by Mr. Mayhew in his garden, the entire layout is covered with gorgeously-hued flowers, which strike the eye in complete harmony.

Baskets of seedlings may be found in the show. Judges completed their work late yesterday and the prize tags were pinned on the windowsills for the entries who saw the Main Building last night.

Although fairly small, the show makes up for the lack of quantity with flowers of outstanding quality.

JOINS GEOLOGICAL SURVEY

In June, 1904, Dr. Camsell joined the permanent staff of the Geological Survey, and in 1914 was placed in charge of the exploratory work

for the Geological Survey. In 1920 he was appointed deputy minister of mines, which position he has since held.

In addition to his regular duties as deputy minister of mines, Dr. Camsell has been chairman of the Dominion Fuel Board since its inception in 1922. He is a member of the council of the Northwest Territories, and a member of the Niagara Parks Board. He has several times been a delegate to the Imperial Economic Conference, and in 1935 was awarded the CMG.

Mr. McLeish, a native of Toronto and graduate of University of Toronto, has been director of mines since 1931.

Mr. Gibson is a native of Brandon, Man. He has been assistant deputy minister of interior since

1919, and has been acting deputy minister for considerable periods.

IS NATIVE OF B.C.

Mr. Wardle, a native of British Columbia, entered the staff of the parks branch in 1914, became manager of the later Banff National Park and later chief engineer of National Parks of Canada. He was appointed deputy minister of interior in 1935.

Mr. McGill, a native of Ontario, was elected to the Alberta Legislature and resigned to become deputy minister of Indian affairs in 1932.

Mr. Blair, a native of Ontario and has been connected with the immigration activities of Canada ever since it was organized by Sir Clifford Sifton.

Mr. Blair is a native of Ontario and has been connected with the immigration activities of Canada ever since it was organized by Sir Clifford Sifton.

O.E.S. Holds First Social This Autumn

The first Fall activity of Victoria Chapter No. 17, Order of the Eastern Star, took place yesterday afternoon at the Shrine Hall in the form of a delightful bridge and tea party. The bridge was under the management of Mrs. M. Sheppard and Mrs. G. Martin, and refreshments were served by Mrs. A. Tripp and Mrs. L. Brinnan. Mrs. K. Brennen and Mrs. P. Schneek.

Mrs. F. E. Wilshire, the worthy matron, was hostess for the afternoon and welcomed the guests. Tea was served in the banquet hall; the tables being set with pink cosmos. Prizes at bridge were won by Mrs. Fleming, first at contract, and Mrs. J. R. Hartley, consolation. At auction Mrs. W. Grimes was first and Mrs. D. M. Johnston received consolation.

Those attending the party were: Mrs. H. Brinnan, Mrs. E. Bremen, Mrs. Tripp, Mrs. A. Mann, Mrs. Bernice, Mrs. J. Anderson, Mrs. A. Horne, Mrs. G. W. Mrs. J. R. Hartley, Mrs. J. H. Harrison, Mrs. G. R. Fleming, Mrs. J. H. Tracey, Mrs. A. J. Housman, Mrs. R. H. Lott, Mrs. E. W. White, Mrs. P. A. Hole, Mrs. Yule, Mrs. J. Slater, Mrs. J. Wilby, Mrs. G. Austin, Miss D. Beattie, Madamenee, W. G. Mitchell, N. H. Grant, S. E. Neville, G. L. Sherwood, M. E. Robert, J. Fawcett, H.-R. Dave, R. Gibson, E. Beattie, L. M. Rowland, L. Neelands, E. J. Miller, T. Hammett, K. McLean, P. Schmeck, R. H. Clubs-Societies

Fairfield W.M.S.

The monthly meeting of the Fairfield United Church W.M.S. was held in the social room with Mrs. C. A. Fields presiding in the unavoidable absence of the president, Mrs. Geraldine Green. Miss Edith Hopkins' circle conducted the devotional service, and there was an excellent arrangement of a questionnaire on the annual Blue Book. By questions and answers, arranged by Mrs. Fields and the convenor, an interesting and enlightening resume of the work and finances of the W.M.S. at home and abroad was given. Forty-nine questions were answered. A vote of thanks was extended to the circle. Mrs. Alfred Dowell acted as secretary during the business meeting. Arrangements for an autumn thank-offering were left in the hands of a small committee. The money will be asked for donations of Christmas gifts for the mission hospitals, etc. Tea was served after the meeting.

Coffey Rebekah Lodge

On September 20 in observance of the fifty-fifth anniversary of Rebekah Odd Fellowship, members of Coffey Rebekah Lodge No. 1 will attend Divine Service at 11 a.m. in the Church of Our Lord, corner of Cordova and Balsard Streets. Members are requested to meet at the church at 10:45 a.m. All visiting sisters are cordially invited.

Spiritual Silver Tea

The ladies of the First Spiritual Church, Sons of England Hall, will hold their weekly silver tea this afternoon from 2 to 3 to 5 o'clock. The readers for this week are Walter Holder, Vancouver; Mrs. Johnstone, Mrs. S. Donkersley, Vancouver, with their family have taken up residence on Ganges Hill, on the property they have recently rented from Mr. and Mrs. H. F. Shade, Victoria.

St. John's Guild

St. John's Ladies' Guild will resume its winter work on Monday afternoon in the guild room, Mason Street.

WOMEN'S INSTITUTES

DISTRICT BOARD

A meeting of the Vancouver Island South District board of the Women's Institute was held in the superintendent's office recently. Present were Mrs. MacLachlan, Mrs. T. C. Robinson, in the chair; Mrs. J. L. Smith, Mrs. M. S. Durrell, and Mrs. M. W. S. Webster. The secretary reported that nearly all the statutes of the district are in favor of holding a conference this year, and November 4 and 5 were set as tentative dates. Plans for the programme were discussed and will be announced later.

AS USUAL

Wife—I wonder what will be the popular styles this summer? Husband—My dear, women's hats will be divided into two styles, as usual—the style you don't like and the style I can't afford.

Saltspring Island

A pretty little ceremony took place when the christening of the twin daughters of Mr. and Mrs. Kenneth Butterfield took place at St. Paul's Church, Ganges. Rev. C. H. Popham officiated. The child was given the names of Lucia Ann, the godmothers being Mrs. Frank Cifilon and Mrs. V. C. Best, Ganges, and Miss Dorothy Butterfield, England, the godfather being Mr. Colin C. King, Bristol, England.

Mr. and Mrs. Frank Scott were recently at a delightful supper and "bingo" party at their home on Ganges Harbor. Over thirty guests were present and the rooms were prettily decorated with roses and

Vancouver, are visiting relatives at Bazar Bay. While here they are the guests of Mr. and Mrs. Ambrose Readings, East Saanich Road.

Miss Glenna Jones

spent the weekend visiting in Victoria with Mrs. Ruth Vallant.

SAGE ADVICE

"Oh doctor," she cried in great distress, "my husband never are all disordered. What can I do about it?"

Travel both of you

said the doctor.

Where do you recommend?

"Two different directions."

One time youth appreciates age is when the moment of reaching for the duster-check arrives.

Vancouver Girl Wed-in Seattle

SEATTLE, Sept. 17 (AP)—Walter V. Swanson, Jr., Yakima attorney and state president of Washington Young Republicans and Miss Marjorie Turton, Vancouver, B.C., were married here tonight at the home of Mr. and Mrs. Arthur E. Bailey, Jr.

Services were read by Rev. Sidney H. Morgan, pastor of St. Paul's Episcopal Church, in the presence of the couple's families and a few intimate friends.

The bride is the daughter of Mr. and Mrs. C. J. Turton, Vancouver (2004 West Thirteenth Avenue), and the bridegroom the son of Mr. and Mrs. Walter V. Swanson, Jr.

The bridal couple expected to leave here by airplane for Chicago on a wedding trip tomorrow, returning in about a week or ten days. They will make their home in Yakima.

Mrs. Swanson, Jr., is a graduate of the University College for Girls at Vancouver and the Dominican Convent at San Rafael, Calif.—she is a member of the Junior League at Vancouver. Swanson was graduated from the University of Washington in 1928, where he was a member of Sigma Phi Epsilon.

Weddings

SHAW-PICKARD

The wedding took place at the residence of the officiating minister, Rev. Daniel Walker, Rockland Avenue, last night at 8:30 o'clock, between Thelma Dahlia, eldest daughter of Mr. and Mrs. James Pickard, 3117 Throckmorton Road, and Mr. and Mrs. J. Shaw, 152 Simon Avenue.

Mr. Pickard gave his daughter away, and she wore a floral chiffon gown of powder blue with a white background, with navy blue accessories, and a corsage bouquet of Ophelia roses, gardenias and swan-songs. Miss Doris Martin, in a crepe lace frock, with a corsage spray of bouvardia and pink roses, and the bride's sister, Miss Joyce of Yellow Springs, with a pink rose corsage, were maid of honor. They both wore gold bandeaus in their hair. Mr. Fred Shaw was his brother's best man.

The wedding party and a few intimate friends returned after the service to the home of the bride's parents, where the decorations were carried out in pink and white. A two-tiered cake centred the supper-table, which was arranged with tall pink candles and pink asters, and the bride left in a green knitted suit with black accessories. Mr. and Mrs. Shaw will return to Victoria to reside.

MCPHERSON-PIERCY

A quiet wedding was solemnized at St. Michael's Church, Spanish Road, when Miss Amy Sowrey became the bride of Mr. Joseph J. Akerman, North Saanich. Rev. P. Conolly officiated. After a few days honeymoon to Wellington and other parts, Mr. and Mrs. Akerman have returned to the Island and will make their home there.

McPHERSON-PIERCY

A quiet wedding was solemnized at St. Michael's Church, Spanish Road, when Miss Amy Sowrey became the bride of Mr. Joseph J. Akerman, North Saanich. Rev. P. Conolly officiated. After a few days honeymoon to Wellington and other parts, Mr. and Mrs. Akerman have returned to the Island and will make their home there.

Ucluelet, Long Beach

Mrs. James McDonald has returned to Long Beach after spending a few days in Victoria. She was accompanied on her return by her son and daughter-in-law, Mr. and Mrs. Thomas McDonald, who will spend a week at Long Beach before returning to Nanaimo.

Mr. and Mrs. David Ford, Duncan, and their two granddaughters, the Misses Josephine and Vivian Yates, who have been spending a short vacation at Long Beach, have left for Port Alberni.

Mr. W. M. Beatty

who has been spending a few weeks in the Long Beach district for some weeks, has returned to his home at Ladysmith.

Mr. Jim Simms

Tofino, who has been spending a few days at Long Beach, has left for Victoria.

Mrs. Harold Amet

Tofino, has returned from Captain and Mrs. J. V. Donoghue, Long Beach, for a short vacation.

Social Activities and Notes of Personal Interest

Social and Personal

Post-Nuptial Reception

In rooms beautifully decked with early Autumn flowers, Mrs. Reginald Hammond (née Bucklin) yesterday afternoon and Wednesday afternoon held her post-nuptial receptions at her home, 1311 Victoria Avenue. Receiving with her, both afternoons, was Mrs. P. T. Hammond, her mother-in-law, and assisting with the serving of tea yesterday were Mrs. L. G. Curtis, Miss Dora Curtis and Miss Mollie Bigwood, while those who were supplemented the previous day by Mrs. John Gossard and Mr. and Mrs. Chas. Zimias, gadioli, golden-rod, and mums asters were artistically used in the decoration of the drawing-room, and a bowl of zinnias and asters centred the tea table in the dining-room. Among the guests were: Mrs. J. O. Cameron, Mrs. R. B. Horton, Mrs. D. O. Cameron, Mrs. S. M. Morton, Mrs. R. P. Farnell, Mrs. W. H. Shandley, Mrs. E. V. Finland, Mrs. D. E. Campbell, Mrs. P. MacPherson, Mrs. Kitchener, Mrs. E. E. Wootton, Mrs. Herbert Clark, Mrs. W. E. Harper and Miss Evelyn Harper; Mrs. Alex. Watson, Mrs. J. M. Whitton, Mrs. S. D. Markham, Mrs. T. W. A. Gray, Mrs. C. Beale, Mrs. Irving F. Dwinell.

Party for Visitor

Mrs. L. K. West, Seattle, has arrived in the city and will spend a few days here as the guest of Mrs. Arthur Brown, Harrison Street. Yesterday afternoon an informal tea was given in her honor by Mrs. George Ford at his home on Hastings Street. The invited guests were Mrs. Walter Lamey, Mrs. Arthur Brown, Mrs. M. Hemmingsen, Mrs. W. R. Clark and Mrs. L. Grand. On Wednesday night, Mrs. West, who is supreme recorder of the

ART PALACE OPENS TODAY

Wondrous TinCraft Creation Is Being Shown at Hudson's Bay Company

Titania's Palace, one of the seven art wonders of the world, the magnificent creation of tincraft by Sir Nevile Wilkinson, K.C.V.O., will be officially opened today at 2:30 p.m. on the fourth floor of the Hudson's Bay Company, where the Victoria public may see it each week-day until October 14.

Containing 4,000 miniature works of art, the palace is composed of sixteen rooms, none of them more than twenty-seven inches high. Each is a masterpiece in inlay and painting, and contains rare treasures garnered from all corners of the world in the last thirty years.

FOR CRIPPLED CHILDREN

Victoria Rotary Club is sponsoring the exhibition and the proceeds from it will go to the Queen Alexandra Solarium for crippled children.

Titania's Palace has already

been entered for the exhibition.

It is expected that crippled children's institutions in Canada and throughout the British Empire will benefit handsomely by the display.

COMMITTEE IN CHARGE

Some of the famous rooms are the Royal Chapel, Titania's boudoir, the bedroom and study of Oberon, the royal consort, the Hall of the Fairy Kiss, the Hall of the Glades, Oberon's music room, the royal dining-room, and Titania's bedroom.

Percy G. Seurah is general chairman of the Titania Palace committee. The members are: S. M. Armstrong, Lieut. Col. H. E. Goodman and George M. Graham, Rotary Club; Charles Williams, E. W. McMillen and Charles E. French, Queen Alexandra Solarium, and A. J. Watson, J. S. Horne and C. W. Page, Hudson's Bay Company.

BROTHER LOVE ASSISTS CUPID

Shoulders Blame for Thefts Allowing Joint Suspect To Get Married

MONTREAL, Sept. 17 (AP)—Brother love assisted Cupid over a tough spot in a courtroom drama today.

The wedding of Miss Jane Donald (NORTHERN COKER) and Mr. George Lionel (Len) Bryant, which was to have taken place at St. Barnabas' Church on Saturday, has been postponed on account of the death of the bride's father, Mr. Thomas Cook at North Wellington, V.I. Notice of wedding date will be announced later.

Takes Position

Miss Marjorie Hansen has left for Vancouver, where she will be attached to St. Clair School as supervisor for pre-school music. This is a course which is just being started in Vancouver for children between the ages of three and six and has come from Louise Rohyn, Chicago.

Holidaying in South

Miss Alice Parkinson, Lyall Street, who left recently on a holiday trip to California, is spending some time with her aunt, Mrs. Frank Brunner, San Francisco. While in the south, Miss Parkinson will visit other cities of interest.

At Empress Hotel

Mr. Trenholme Dickson, K.C., and Mrs. Dickson, who have been spending the Summer months in Edmonton, have returned to Victoria and are staying at the Empress Hotel.

Back From Saipan

Mr. and Mrs. R. R. Watson, 828 Hampstead Road, have just returned from spending the Summer at their camp at Beaver Point, Saipan Islands.

From Vancouver

Mr. and Mrs. Frederick A. E. Manning, Vancouver, are spending a few days in Victoria as the guests of Mrs. Manning's parents, Mr. and Mrs. J. Carl Pendray.

Entertains at Tea

Mrs. J. M. Rockingham entertained a few friends at a delightful tea party yesterday afternoon at her home on Belmont Avenue.

Returns From Holiday

Miss Bernadette Colbert, Field Road, has returned to Victoria from a two weeks' holiday spent with friends at Oakland.

Back to Mainland

Mr. A. McD. Paterson, Ladner, who spent a few days in Victoria on business, has returned to the mainland.

From Winnipeg

Miss Kathleen Beaman, Winnipeg, is staying with Miss Marnie Merrick, Uplands.

Sookee

Mrs. Felix Norton, Norton Inn, Orcas Island, is visiting her parents, Mr. and Mrs. W. Wilson, Murray Road.

Mrs. W. H. McBrien has returned from an extended visit to her daughter in Winnipeg.

Mrs. Susan F. Cooke, "Granforn," has returned to Queen Margaret's School, Duncan.

Mr. and Mrs. F. B. Burns have returned to "Ty Colleen."

Mr. Henry W. Aceman, who is spending two weeks here with his parents, Mr. and Mrs. A. Aceman, will return Sunday to his home in El Paso Texas. Mr. Aceman, who is accompanied by his young son, Walter, motored up by way of Santa Fe and Denver, and will return by the coast route.

FOUR KILLED IN CRASH

CHESHIRE, Conn., Sept. 17 (AP)—A thirty-passenger bus skidded on wet pavement near here tonight and crashed into a tree, killing four persons and injuring fifteen others.

Victoria Course Prizes To Be Awarded Tonight

Riding and Jumping Is of High Standard in Horse Show at Willows—Programme Opens With Splendid Parade of Stock

The crowd attending the Horse Show at the Willows last evening cheered enthusiastically as the winners of the various special riding and jumping events were announced. The show started with a parade of prize cattle, which drew a great deal of interest. The Victoria course, sponsored by Mr. and Mrs. Jutson Fisher, is being jumped each night of the show, and the winner will be announced tonight at the conclusion of the programme.

At the end of the programme Master Jackie Russell, of Vancouver, gave a spectacular high-jumping exhibition. Sky Line, clearing a difficult five-foot jump with ease.

PRIZE WINNERS

The first event, Class 1, best four-horse team, judged for conformation, manner of going and for equipment, was won by the Central Vancouver team, with their burnished harnesses, driven by an expert, gave a fine exhibition. Second prize was won by J. W. Munro's team from Cartairs, Alberta, and third by G. P. Jackson, of Salmon Arm, B.C. All four teams entered were of excellent class and would have been noteworthy entries in any exhibition.

In Class 71, road hack, the first prize was won by Shoebotham & Pixley's entry. Max, second, Shoebotham & Pixley's saddle, and third, the Russell Riding School, Vancouver.

In Class 72, children's riding, the silver cup was awarded to Miss Minnie Ford on Carry On; second, Miss Orly Parris on Pola, and third, Miss Peter Williams on Pipet.

The competitors were all under twelve years of age and entries were judged for horsemanship only. The three judges, after viewing the competition, gave a fine display of sportsmanship, receiving congratulations from the spectators and applause for their excellent performance.

In Class 73, hunt classes, sponsored by His Honor the Lieutenant-Governor, the first prize was awarded to Miss Daphne Pooley's Chief, shown by Mrs. Jutson Fisher's Hurrah, Kate, shown by Mrs. Carley, and third, Comander Slingaby's Manifest, shown by Miss Terese Todd.

CHILDREN UNDER SIXTEEN

In Class 86 for children under sixteen years of age, the horses ridden were the best, and the first prize went to Miss Jackson on Kittiwake; second, Mrs. Jutson Fisher's Hurrah, Kate, shown by Mrs. Carley, and third, Comander Slingaby's Manifest, shown by Miss Terese Todd.

YOUNG RIDERS

In Class 87 for young riders, the first prize was won by Miss Jackson on Kittiwake; second, Mrs. Jutson Fisher's Hurrah, Kate, shown by Mrs. Carley, and third, Comander Slingaby's Manifest, shown by Miss Terese Todd.

YOUTH RIDERS

In Class 88 for youth riders, the first prize was won by Miss Jackson on Kittiwake; second, Mrs. Jutson Fisher's Hurrah, Kate, shown by Mrs. Carley, and third, Comander Slingaby's Manifest, shown by Miss Terese Todd.

YOUTH RIDERS

In Class 89 for youth riders, the first prize was won by Miss Jackson on Kittiwake

MOTHER LOVE

"What is the matter, my little man?" asked a sympathetic stranger of a small boy whom he saw crying in the street.

"Please, sir, my dog died," sobbed the boy.

"Well," said the man, "you mustn't take such trouble of it. My grandmother died last week and I am not crying."

"No," said the boy, "but you didn't bring her up from a pup!"

MAINLAND MEN ARE DIRECTORS

Vancouver Lumbermen Are Principals in Deal for Island Timber

Principals in the new Alberni-Pacific Lumber Company (1936) Ltd., which has taken over the John D. Rockefeller, Jr., timber holdings in the Alberni-Cowichan Lake area on Vancouver Island, were set out in papers filed with the B.C. Registrar of Companies recently.

The directors were named as follows: Harvey R. MacMillan, lumberman, Vancouver; Whitford J. VanDusen, lumberman, Vancouver; Leon R. Scott, lumberman, Vancouver; Aird; D. Flavelle, lumberman, Vancouver; and David N. Hossie, barrister, Vancouver.

The limits transferred contain some of the best fir stands remaining on Vancouver Island, according to provincial officials.

The registered office of the company is given as 837 West Hastings Street, Vancouver.

CLUB CONFERENCE PICTURES SHOWN

Members of Victoria Club View Scenes of Rotary International Convention

Motion pictures of the twentieth Rotary International Convention at Atlantic City, New Jersey, were shown to members of Victoria Rotary Club by Douglas Plintoff and explained by Frank Sehl during a luncheon meeting in the Empress Hotel yesterday.

Mr. Sehl related the conference was attended by 9,914 Rotarians from forty-nine countries. Films showed Atlantic City scenes, entertainment arranged for clubmen, convention personalities, banquets and business sessions.

Musical selections were rendered by Miss Sheila Conway, piano, Christopher Miller, violin, and Herbert Bottoms, organ. Frank J. Doherty, club president, presented Miss Conway with a corsage bouquet.

It was announced Colin Murray Forrest had been elected a member of the club.

Little Stories for Bedtime

A Friend in Need Is a Friend Indeed

By THORNTON W. BURGESS

The friendship which is truest, best, is that which meets the trouble test.

No one really knows who his best friends are until he gets in trouble.

When everything is lovely and there is no sign of trouble anywhere many feel that they have been too enthusiastic and use the method less often or perhaps not at all. The result is that the method gets into disfavor.

After a time—short or long—it may come into use again and be considered favorably, but not, of course, to the same degree as when first used. This is spoken of as the upswing of the pendulum, then the downswing in the other direction until the pendulum gets into its proper position. The method has its good points and its bad points, but finally reaches its proper place in medical treatment.

This is what has happened with what is called colonic irrigation, where the colon—the lower bowel—is filled or flushed with water and then the water is allowed to run out again.

Dr. Frank Hammond Krushen, Rochester, Minn., in The Journal of the American Medical Association, states that this colonic irrigation should not be considered simply as massive or large enemas, but as an actual washing out of the colon like the usual enema received by an amateur.

As the water is put under low pressure, the patient does not have the same strong desire to expel or push it out so soon, and the cleansing water goes up farther into the colon and stays there.

The only apparatus needed is the usual treatment table, a plain glass irrigation jar on a stand, a rectal tube and a Y tube with two clamps, and a large closed jar or an ordinary toilet or hopper to receive the return flow.

The water is an ordinary salt solution of approximately half a pint of water—adequate but not satisfactory or antiseptic or alkaline enough.

"While the oft-repeated, regular or routine use of colonic irrigation is unsafe, an occasional series of colonic irrigations may well be given for the treatment of unfavorable conditions in the intestine—arthritis (rheumatism), or where the waste matter (faeces) becomes impacted. When there is an ulcerated condition or when the intestine has a tendency to colic, colonic irrigations should not be given.

There is no need for you to take chances with your meals by using meats of a doubtful quality, because only real good-quality beef is sold by us under the "Red Ribbon" Label. Phone your week end order to us today, and you will be pleasantly surprised with the result.

Waitress (under noise): "Yes, it's partly 'cos there ain't enough tea in it, an partly 'cos there's too much bloomin' water."

How It Started

By JEAN NEWTON

SOUND AS A ROCK

To be as sound as a rock is to be

in perfect health—in first-class

physical condition, in short, to be

as sound as a rock!

Least anybody get a wrong impres-

sion, let it be stated at once that

"sound as a rock" is really a conser-

ation of "sound as a roach," which

has the identical sense.

We have the later phrase after St.

Roche, the guardian against plague,

pestilence, and alembic of all kinds.

The expression, which has been in

the English language about three

centuries, appears in among other

early works, "Health's Improv-

ement" by Moult and Bennett, pub-

lished in 1655.

Hudson's Bay Company.

Rose of Soledad

by GEORGE E. HOLT

CHAPTER I

A silver-winged bird circled high in the blue Summer day which lay upon Southern California, high over the brown velvet hills—so high that it seemed no bigger than a flashing sea gull.

It spiraled downward in great loops; grew larger; a faint mutter reached the hills from it, like the beating of wings.

Lower it came—but still so high that it was more of a flash than an object. Circling.

And now the sound grew plainer. Not the steady beat of flying wings, but a broken, interrupted pulsation as of a man's heart fighting for life, or of wings beating frantically against a cage.

For a little space this continued. Then a tense, menacing silence. The silver bird still circled downward.

But now a new fit of breath was added to its silver plumage—a swift black feather which trailed behind, dragging; a flash of a flame-like feather, which was gold—ever against the bright sky.

And in the next breath a black dot appeared just beneath the flying silver thing. It dropped off. The great bird burst into a blast of golden plumage and plunged downward, the gold changing to funeral blue.

From the falling dark speck there shot a sudden upward puff of silver white, like a cannon fired. A white mushroom. It hung motionless; the black dot swaying beneath it like the weight on the end of a pendulum, beating out the seconds until the smoky trail of the once silver bird should reach the brown hills. Counting it out, as a referee a fallen fighter.

The black curve ended, with a little cry of pain, which floated over the shallow valleys.

And now the white mushroom, with its pendant black dot, was dropping swiftly through the breezless air.

Lower and lower, and the mushroom showed its corded ridges; the dot became a man, hanging, swaying little, at the end of many ropes.

Down—down—down—until the bite were upon him.

Suddenly the white mushroom was distorted a little, as the pendant man reached up, seized certain ropes and redistributed his weight

upon the buoyant silk—the only rudder the voyager by parachute may have.

But it was too late. The man's eye had miscalculated. Or the silken float had not reacted as he hoped.

Down—farther—and he was swung into the branches of a huge elm tree. Fortunately for him there was no stir of air. Fortunately for him, also, the parachute ropes had not been tangled in the strong elm limbs.

"Do you always get down from your plane this way?" The whistle stopped to make room for the question.

With surprising swiftness the aviator now seized the rope toward which he had been itching—one of the "chute ropes, which was firmly entwined about a strong branch, and which swept toward the ground. He clutched the rope, kicked off the limb on which he stood, and the rope swished through his gloved hands as he flushed downward, laughing.

"Oh-h!" Before the impudent one in blue and khaki had time to move, he was seized in rude arms, clapped horizontally, and a heavy hand

closed over the mouth of the whistler. "Do you always get down from your plane this way?" The whistle stopped to make room for the question.

"Help! Help! Help!" he cried, as the aviator gave him much bulk. He inched inwards toward the mighty trunk, found a strong crotch, sat down in it, removed his goggles, produced a somewhat soiled handkerchief and wiped his face.

"And thus at last," he told himself, "I join the Caterpillar Club. Well, well, well!—And poor old Pegeaus has gone where the good Peggy goes."

At that moment the sound of whistling reached him. He listened, trying to place the source of the sound. Whistling farther, it seemed to him that the whistling held a derivative note. And a familiar one. What was that tune? Something old, old as childhood. It came to him. Some impudent whip was whistling "Little Birdie in the Tree, Sing a Song to Me."

He bent over and looked downward. Nobody there. Nothing but a golden ground spattered by violet shadows. A hundred yards away stood a long row of eucalyptus trees, which were soldiers marching, beyond them a sweet rise of green land on which stood a far spreading white house with arches marching along the front, and red tiles on sloping roofs, and crimson bougainvilles splashed like blood against the pale walls.

Still the derivative whistling proceeded.

He twisted around in the fork of the tree, to see behind him, and grunted.

"So, you're the bright lad, are you?" he said. "I suppose you think you're funny. Well, sign off and go on being the man with the hoe."

It was quite a ways down to the ground from his lofty perch, for the old elm tree had been a tree when Father Serra plodded his dusty course along the King's Highway. Wherefore the person to whom he addressed his indignant speech seemed unduly tiny. But manifestly the broadcaster of the derivative melody was a kid in faded blue trousers, khaki shirt, a blue bandana handkerchief about his neck and a battered broad-brimmed straw hat low on his head. He leaned upon his hoe, but his gaze was not upon the ground. His head was thrown back, revealing a tanned, oval face, two lips still pucker'd in the production of melody, two eyes squinting upward, and a fringe of curling black hair.

Thus rudely addressed, the kid ceased his tune, leaned more heavily upon his hoe, cocked his head a little more impudently upward.

"You look sorta ridiculous," he asseverated slowly, judicially. "Yeah; that's the word." The voice was smooth and throaty, a singing voice one would have said—except that its owner seemed to prefer to whistle.

"You're an impudent brat," announced the man in the tree. "That's the word, too. I might add that you are impudent, rude, uncivil, saucy, unmannerly, disrespectful."

"Dare you?" said the kid.

The flyer jumped backward as if he had stepped on a rattlesnake, his face crimson. "Help!" he groaned.

"A girl!" For one awful and seemingly endless moment the girl's dark eyes held his, blasting him with their dark-lightnings.

"Only," replied the man in the tree, "when I am in a hurry to chastise an impudent young imp."

"Oh, you mean me?" asked the kid, pointing at himself. "You're going to chastise me? Is that it?"

"Cause I whistled a tune for you?"

"You," asserted the man. "Absolutely you. I'm going to chastise you precisely where it will do the most good." He inched along the tree limb. "With my hand," he added malevolently. "Just like mother used to make."

"Dare you?" said the kid.

The flyer descended upon the plumply filled grossness, that he had set fire to his ship in mid-air and descended by "chute to an elm tree, saying, "After this, there is nowhere to go."

No, the old crate had just given out, as he knew it would give out some day and cause him to go overseas. And he had flown by somewhat easy stages, from the city on the Chesapeake to the land of the setting sun, neither because of scenery, climate or progress, but because the O'Hara family, having grown weary, he had either to consent to him in a small stucco house in one of Baltimore's uninspiring suburbs, and probably get a job as bond salesman—if bonds ever were saleable—or fly West and locate, and take over the old and abandoned ranch which had been the one piece of real property standing in his name—a gift from his father; albeit a laughing one, when he had cast his first vote.

And then she turned her slender back upon him and strode away, in hand. And when she had gone a little way, Shane O'Hara, staring ruefully at that slim figure in the blue and khaki, and still seeing the blushing purple eyes beneath the tattered old straw hat, heard a familiar sound.

Somebody was whistling.

The tune was "Little Birdie in the Tree."

Shane O'Hara watched the girl until she was lost in sight behind the eucalypti. She did not look back. She whistled and went her way. Shane shrugged his shoulders and turned to look at the "chute spread on the elm tree. He shrugged his shoulders again. Whether for the same reason he had shrugged them the first time or for a new one, was not apparent. Then he strode over to the tree, sat down, leaned against its trunk, cast aside his gloves, fished out the "makings" from an interior pocket, and rolled himself a cigarette.

"Not only the Caterpillar Club," he said aloud, "but some other sort of society. In which I was the goat. Don't know what to call it." He reflected, "but it's certainly not mighty like a goat, which it was very much mistaken—time was when he had been a goat."

"The Young Men-Who-Go-Around—Beauties—Girls," he suggested to himself. "No, Too Injunous. The Squaw-Beaters, how's that? Nope, too modern. The Girl-Splinters, I guess that's about it." He thought truly. "Or the Skirt-Paddlers. But regardless of all that, why didn't my neck get tangled up in those 'chute ropes?"

Shane O'Hara, coming three thousand miles to California, had never seen, knew nothing about Miss Porter, of Ental Place, had hidden him fare-well without much enthusiasm. Wealth, or the lack of it, causes a variation of farewells as well as greetings. Anyhow, they had not been formally engaged—just an understanding. Fortunately, for Miss Porter was ambitious.

Well, Baltimore was behind him now, long ago and far away, and although there really were plenty of buses running, Shane O'Hara had a feeling that some interesting things might happen on a California ranch.

Things had happened already, for

farmette. That is good. That is very good. Ental Place would be delighted. To say nothing of Charles Street."

His tobacco tasted vile, and he shot the cigarette into the golden dust. He leaned back, closed his eyes against the bright California day. His head was full of a medley of thoughts, confused and disconnected. But most vivid and disturbing of all was the memory of a diminutive little figure tucked under his left arm; of a heavy gloved hand descending with the force of irritation upon the seat of a pair of blue denim pants.

Oh, gosh!

Now, young men from Baltimore do not become entangled in elm trees in Southern California without some reason.

It had not been Shane O'Hara's agenda at all to become entangled in an elm tree in Southern California, in spite of the claims of the San Diego or Los Angeles Chambers of Commerce as to the advantage of California elm "trees" over all others as elm trees in which to become entangled. Nor had he been overcome by the beauty of the California vista, nor the salubriousness of the California climate, nor the appeal of California pro-

that matter. Things that never had happened before. He assuredly had not ever spanked Miss Billie Porter, of Ental Place. Nor had he ever fallen into a Maryland elm tree and had a boyish girl "whistle" "Little Birds" to him. Maybe, after all, there was something in this Los Angeles chamber of commerce stuff.

Alas, come to think of it, his ranch was in San Diego county, not Los Angeles. Somewhere near—What was the name of the place?

—San Feliz; that was it. San Feliz. Saint Happy or Happy Saint? He didn't know. Odd names they had for things out here. Los Angeles—the Angels. Hmph! Not according to The Times or Examiner. San Diego. St. James. Carpinteria—what did that mean?

Back to the ranch. How big was it in California? A real ranch. His own was only a thousand acres.

He had sure crossed a lot of them and acres on the West Coast since he had been inside the California state line. California was a whooping state, no doubt about that. And a thousand acres? Hadn't he read of some of the great ranches, the Spanish grants as they were called, which ran into the hundreds of thousands? Probably his ranch would be somebody's back garden.

It was time, he decided, to arise and go forth and discover where he was.

He arose and made his way toward the marching line of eucalypti, behind which his tormentor had gone, passed them, climbed the easy grade to the big white house with its arches and its red tiled roofs and its crimson bougainvilles against the walls. And to the old, white-bearded man sitting at a great cane chair, smoking a pipe, huge, huge eyes ever shifting, whose faded blue eyes twinkled a little as they watched the khaki-clad figure climbing the path, swinging his goggles by their ribbon. A man with a beard like an Italian doge.

Age and Youth took stock of each other for a suspended moment.

Age saw youth, a tall figure in enveloping flying togs, a foot set tentatively upon the bottom step.

A brown-faced, clear-eyed youth. Age guessed at two dozen Summers, and guessed rightly. The brown eyes were unfaltering, but in them was hesitation, now.

The lips were as they should be, owing neither to the fullness which is indicative of a sensual trend, nor the thinness which is selfish, though often wrong. Yes, age thought, it was a good example of the modern type—the generation of youth born to wings.

Youth saw venerable age in a wicker rocking chair, smoking the pipe of reflection, and perhaps, for goodness. Yet the sharp, twinkling blue eyes gave the lie to that.

Oblivious? Again the sharp blue eyes gave the lie to that thought.

Shane O'Hara turned his head and shoulders to glance backward at the ancient elm tree. Yes, it was

plainly visible from where the old man sat. But not the ground beneath. Obvious? Never. With the calm of the old age, this venerable one had sat rocking slightly in his chair, watching the meteor path of the stricken plane, the slow drift earthward of the "chute with its human burden, the stranding of the aviator in the branches of the elm. Seeing these things, which no previous generation could have seen, he still sat in his rocking chair and imperturbably smoked his pipe, his old hands combing his white beard or resting listlessly upon the chair arms.

Imperturbable.

MARCUS DOCILE SETS TRACK RECORD AT WILLOWS

Percy's Gelding Races to Victory In Feature Event

Sets New Time for Six Furlongs and Thirty Yards In Wining Upplands Handicap—at Local Enclosure—Jockey Jackson Pilots Winner—Favorites Dominate Programme

Running for the first time on the Willocks track, Marcus Docile, fleet-footed gelding owned by H. J. Percy, won second and Brown Jester third.

Princess A. A. scored easily in the fifth gallop at one mile and one-sixteenth, when she came home three lengths in front of Ladyflier. Ago finished in the show position.

Made the favorite by the punters, King Beauty was the victory winner in the final race of the day, paid \$4.20 for a \$2 bet on the nose.

Architect, twelve-year-old gelding owned by C. Nicason, closed with a burst of speed and gained the place position. Scotland Prince, the rank outsider in the race, took the show portion of the pot and rewarded her backers with \$11.85.

Riding honors for the day were evenly divided between Christensen, Barnett, Sporni, Young, Jackson and Vesselli, all of whom rode one winner.

The double daily, King Beauty and Leyburn returned \$40.10, while the one-two bets on the fifth and seventh gallops paid \$10.25 and \$36.75.

There was another good crowd of fans on hand to see the bang-up racing, and betting during the day was exceptionally brisk.

With the sixth gallop, the Flying Handicap, as the feature, another attractive seven-race programme will be presented today. The first post time is 1:45 o'clock.

OVERNIGHT ENTRIES

Overnight entries for today follow:

FIRST RACE—Claiming: three-year-olds and up; six furlongs and thirty yards (112)

MARINE, RAIL and AIR

British Plane May Establish Height Record This Month

Experiments to Be Made Over Nine Miles Above Earth Will Enable Designers to Meet Requirements for Stratosphere Flying

LONDON, Sept. 17.—Experimental flights in the course of which a new world record may be set for height above sea-level reached by a heavier-than-air flying machine, are scheduled to begin next week. The experiments for high altitude flying research at one of Britain's largest aircraft factories. The present airplane height record, set only recently by the French pilot Georges Detre, is 14,836 metres (48,670 feet), or approximately nine and a quarter miles. How high the new British craft is expected to go is a closely kept secret, but a new record should be well within its powers.

Flight at great heights holds fascinating possibilities, though its success depends on the solution of vast technical problems. Professor G. T. B. Hill, Kennedy Professor of Engineering at London University, has dismissed the dream, cherished by some, of travel at great heights, as more than 1,000 miles an hour, because the plane might be eliminated and each member of the crew might live in a supercharged auto, analogous in its function to a diving suit.

HAVE INFORMATION

Already British engine designers have a vast amount of information about conditions that must be met to assure safe flight at great heights. Three times has a Bristol engine powered the airplane holding the world height record; the Italian record holder, who had record till now exceeded a few days ago by Detre flew an airplane equipped with a supercharged Pegasus 1,100 horsepower motor.

The new high-flying airplane designed and built by the Bristol Company has satisfactorily completed flying trials equipped with an ordinary supercharged motor. A special engine is to be installed for the experimental flights, which will be made by a Royal Air Force pilot. It will drive a controllable-pitch air screw.

ity, that is now using this province's product exclusively.

The visitor also referred to the rapid growth of the industry on the Coast, employing a large number of men. The pitchfork run off here had recently dropped off because of adverse winds, Mr. Cowie explained.

Mr. Cowie is making an inspectional visit to Western territory, and during the morning called on George J. Alexander, deputy commissioner of fisheries, at the Parliament Buildings.

GOOD SPORT AT MALIGNE

Bob Davis, Noted Writer, Got Plenty of Trout, but No "Button" Fish

JASPER PARK LODGE, Sept. 17.—Who made up Cobb was a friend who shrieked at Bob Davis, world-known columnist of The New York Sun, when he alighted from a car here today after spending three days speckled trout fishing in the waters of Maligne Lake and River.

I warned you that Cobb was over-estimated as a piscatorial expert, and also avowed that I would show him up—Just cast your glimmers over that mess of trout and see whether I'm a boater or Cobb is a pure fisherman.

Tonk peak at this baby here, on round trout fishing, is a two-ounce short of being a "button" fish, which disappointed me greatly. It pleased me immensely, though, to learn that it was two ounces heavier than Cobb's best attempt. I got my limit without going short on meal or rest time," declared Davis, dancing around his mess of speckled beauties with a boisterous expression of youthful joy.

FASCINATING SCENE

"Sceneries—I've traveled all over the world and have never in my life seen such a fascinating collection of land, water, forest and sky. The mountains are the most individual in the world, and the general scene is fascinating beyond imagination."

"However, to return to Cobb and fishing, it is useless to make any attempt to satisfy public acclaim as to who is the best fisherman, Cobb or myself. The trout are so plentiful that I will frankly admit even Irvin Cobb can catch fish in Maligne Lake," declared the great columnist, as he disappeared in the direction of the kitchen for an interview over a certain matter with the lady chef there.

VANCOUVER SHIPPING

VANCOUVER, Sept. 17.—The Ocean Shipping Company, Limited, today reported five refrigerator ships due here between now and January 7. Ms. Canadian Reefer is due October 18. Ms. Brazilian Reefer, November 3; American Reefer, December 17; and Chilean Reefer, January 7.

The Norwegian freighter Ms. Try丸 was here to Canadian Transport Company, Limited, to load full for British Columbia.

Royal Mail Line Ms. Delfidijk丸 today from United Kingdom and the continent, will embark a number of passengers for the return voyage to England.

Deep-sea export and import tonnage for Vancouver during August of this year shows a large increase over the same month last year, according to a monthly report issued today by the Vancouver Port Authority. Both local and foreign coastwise shipping declined, however.

During August of this year 100 deep-sea vessels arrived and ninety-eight departed compared with eighty-five arrivals and eighty-six departures in August, 1935.

Foreign coastwise arrivals this year totaled 129 vessels and departures 119, compared with 153 and 152 last year, while 1,587 local coastwise vessels entered and 1,658 departed, against 1,703 and 1,672 in 1935.

ELECTRIC OUTBOARD MOTOR BEING SHOWN AT WILLOWS GROUNDS

A motor car battery will operate the new Eclipse electric outboard motor, manufactured by the Bendix Company. The new machine is being demonstrated at the Provincial Exhibition at the Willows by Robert Willis, on Enterprise Wharf.

The motor weighs only eighteen pounds, has two speeds, can be reversed, is extremely economical and can be operated by a child.

Mr. Willis is also showing the new Neptune Outboard and Aircooled motors, one being installed in a 12-foot rowboat, and which is attracting a lot of attention. The exhibit is located at the entrance to the Woman's Building.

Government-Subsidized Dirigible Service Proposed

WASHINGTON, Sept. 17. (AP)—United States Department of Commerce officials made known today they will submit to the new maritime commission a proposal for a Government-subsidized trans-Atlantic dirigible service.

Technical studies already have been made by the Commerce Department into suggestions for Government subsidies to a privately-operated trans-Atlantic dirigible service, officials said. Under the ship subsidy law, they added, the commission will have ample authority to deal with this question and the Commerce Department thus will hand it over to the new agency, which will administer the ship subsidy law.

HIGHEST IN SOME YEARS

British Columbia Salmon Pack So Far Amounts to 1,361,499 Cases

VANCOUVER, Sept. 17. (AP)—An exceptionally heavy run of Sockeye salmon at the mouth of the Fraser River and good catches of pink in Skookum River and central areas this season brought British Columbia's total salmon pack to the highest figure in the past six years.

The total pack for all districts for this season to September 12 was 1,361,499 cases, compared with 1,114,408 cases for the corresponding period of 1935, the previous high year, according to figures issued today by the Department of Fisheries here.

LARGEST GAIN

The largest gain was in the Skeena River district, where the pack totaled 354,904 cases this year, compared with 225,479 cases in 1935.

Rivers Inlet and Smiths Inlet, where fishing was practically at a standstill this year, owing to a fishermen's strike, registered heavy losses.

The pack at Rivers Inlet totaled only 67,241 cases against 103,062 last year, and Smiths Inlet dropped from 39,283 to 11,161 cases.

Combined figures for the central area and Queen Charlotte Islands totaled 114,458 cases this year, a gain of 165,736.

WANDERING HABIT

With the arrival of the whalers Black Brown and Green from the Ross Harbor base, all the ships operated out of Victoria by the Consolidated Whaling Company this season are now in Winter quarters. The Black Brown and Green took 155 whales in all for the season.

The high ship was the Green, Captain R. Hansen, with fifty-seven; while the Brown, Captain Williamson, with fifty-one was second, followed by the Black, Captain William Balcom, with forty-seven.

TRAINING SHIP

It has been announced that the Majestic, the former flagship of the White Star Line, which was to be broken up, will be taken over by the Admiralty and will go to Rosyth, to be used to train boys who are entering the lower deck of the Royal Navy.

The liner has been lying at her berth in the new docks at Southampton since she was retired from the trans-Atlantic service in February, and her sale to Thomas W. Ward, Limited, the shipbreakers,

was announced last May, the price being paid in the neighborhood of £15,000. Since then the sale of her fittings and furnishings has been in progress.

TRANING SHIP

It has been announced that the Majestic, the former flagship of the White Star Line, which was to be broken up, will be taken over by the Admiralty and will go to Rosyth, to be used to train boys who are entering the lower deck of the Royal Navy.

MIGHTY DRAMA IS CAPITOL OFFERING

Katharine Hepburn and Frederic March Are Co-Starring in "Mary of Scotland"

Two of history's most vivid figures live again in a romantic tragedy that shook two kingdoms with its consequences, as Katharine Hepburn and Frederic March co-star in R.K.O.-Radio's "Mary of Scotland," now at the Capitol Theatre.

Miss Hepburn portrays the hapless Scottish queen in this adaptation of Maxwell Anderson's stage hit of the same name, and March is the bold and handsome Earl of Bothwell for whose love she sacrificed her life and crown.

Produced by Pandro S. Berman, the film was directed by John Ford, winner of the Academy Award for the best direction of 1935. Florence Eldridge, Douglas Walton and John Carradine head a supporting cast of forty principals.

Tottie (aged five)—I wonder why so many babies are born in the night time?

Lottie (aged seven, a little wiser)—It's 'cos they wants to make sure of findin' their mothers at home.

The Texas Rangers, King Vidor's historical epic of the men who moulded a state from the territory of Texas, comes to the Dominion Theatre today.

The picture features an all-star cast headed by Fred MacMurray and Jack Oakie, and including among its headliners Jean Parker, Lloyd Nolan, Edward Ellis, Bennie Bartlett and a score of others.

Filmed on location in Texas and New Mexico by a company of several thousand persons, with the assistance of officials of both states, "The Texas Rangers" combines a fast-moving action and thrill-filled story and a panoramic view of the unfolding of the history of the Lone Star State.

Banded together under an oath to drive out cattle rustlers, stage feuds, destroy cattle and horse thieves, gangs of stage and train robbers, kill or capture murderers, and make Texas a reasonably safe place in which to live, the Rangers contributed much to the color of the state's early days. Both MacMurray and Oakie join the fearless band in the course of the motion picture.

PLAZA WARNER BAXTER GLORIA STUART IN **The Prisoner of Shark Island** ALSO **Everybody's Old Man** IRVING COBB — ROCHELLE HUDSON

FINANCE - COMMERCE - MARKETS

Security Prices Move Higher at New York Mart

NEW YORK. Sept. 17 (AP) — Quiet but persistent buying forces got behind the stock market today and rallied recently depressed issues fractions to around 2 points.

Leading the forward rush were selected steels, rails, motors, oils, copperas and specialties.

Transfers totaled 773,370 shares, compared with 1,042,412 yesterday. It was the smallest five-hour volume since June 29.

A few more stable shares took a turn for the better as most factories were expected to start humming in the next week or so in production of 1937 models.

Some trading hesitancy was attributed to the cloudy foreign scene. Reflecting the continued flow of gold from Paris and the Continent to London, sterling whirled up to a new two-year peak before meeting resistance. The French franc held about even.

Increasing Wall Street confidence that carloadings will rise this fall attracted demand for carrier issues in the bond market.

United States Governments moved MT-32 to 7-32 of a point. Missouri Pacific 5s added 1-2 at 41 and Allegheny 5s, stamped, gained 1 to 64-14.

Foreign obligations were firm.

THE TUTTS... By Crawford Young

A leading man in the cinema world entertained two beautiful movie "stars" to tea. Relations between them were strained, and for business reasons he wanted them to be friends again.

"Come, make up!" he said, impulsively.

"But Thais," said the blonde "star," "I already made up."

Thais, the brunette, bit her lip. The little tea party went on. The talk turned, after a while, to burglars.

"I always feel safe," the blonde "star" said, "when there's a man in the house."

This was Thais' chance.

"I don't see why you shouldn't, dear," she laughed.

Continued from Page 10

Shane O'Hara did not realize that because of the great United States naval base at San Diego, airplanes were as common as flies to the walking people of Southern California; nor that few indeed had not seen a plane streaking downward in a plume of smoke; or that almost none existed who had not seen flyers drifting earthward beneath the minnows of a parachute. The old man shuddered. He could not understand what had happened—or almost all. Had seen no reason, once the lucky flyer was astride a bough, to lay aside pipe and easy chair and rush wildly about. The young man would climb down out of the tree, make his way to the house; and there, no doubt, as others had done, would desire to telephone headquarters where he was and what he intended to do about it—and then would have to be told that to be without a phone was one luxury upon which they insisted.

But had those keen blue eyes seen the horrible event which had taken place upon the ground beneath the tree?

He couldn't have. That was why Shane had turned to look. Thank Heaven, a kindly sized land promoted. And so, with a little less embarrassment, youth greeted age.

"I'm sorry, sir," he said, "to have used your tree—without permission. But I just couldn't stop on my way to it." He offered a little grin as peace offering.

"It's a nice tree," said the old man, and Shane noted that the words held the same singing tones he had observed in a more boyish voice. "But I reckon you didn't hurt it much, even if it was not used to having young fellows jump into it from nowhere. You all right, son?"

"Not a scratch," replied Shane. "This was my lucky day. That is—hum! Part of it was my lucky day."

"Lost your pipe," the old man offered as a suggested explanation.

Then that the old buss was ready for the boneyard. But it was all I had-left."

"Walking is said to be good exercise," offered the old man. "Always heard that when I was young. Never tried it." His beard lifted in a grin. "Why walk when you can ride?" he asked. "Well, Mr.—He paused.

"O'Hara, sir," said Shane. "Shane O'Hara, late of Baltimore, the monumental city." He ascended another step.

"Come up, son," said the old man, holding up his hand. "Come up and sit." Shane took the remaining steps, clasped the withered but still powerful hand in his. "Delane's my name, son, Timothy Delane. Better known hereabouts as Don Timoteo. Have a chair." He motioned Shane to a hospital

seat. "Where you going anywhere, or just riding round?"

"I was headed to San Diego," Shane explained. "To find out where the town of San Feliz is hidden among the hills. When I found out, I was going to San Feliz."

"Well, son," said Timothy Delane, "you didn't miss it. Had been a little West wind and your parrot would probably have set you down in the thriving community of San Feliz."

"You mean it's near here? I saw half a dozen buildings over that way," he waved.

"That's it. Just over the hill," responded Mr. Delane. "A mile-and-a-half, maybe. But there are a dozen buildings anyhow. There's a car here if you want it. No telephone."

"Well," Shane explained. "I didn't particularly want to go to San Feliz, you see, sir. That was only on the way to somewhere else. A ranch called Paloma."

"La Paloma," said the old man. "Feminine noun, meaning dove-takes feminine article, la." Well, this is Rancho Soledad, my lad; and there's nothing but a wire fence between here and La Paloma. So you come pretty high getting just where you was headed for."

"The—dickens! I did, didn't I? Huh! That's a funny one. With the second biggest state in the union to crack up in, the old girl had to blow a gasket right over my personal and private ranch."

(To Be Continued)

SHIPPING AID TO COAL USES

B.C. Fuel Tonnage for August Shows Substantial Rise at 103,457 Tons

Progressive sales of coal for bunkering ships in the offshore trade are ascribed as one of the reasons for a definite pick-up in British Columbia's coal production last month, according to provincial circles yesterday. August tonnage mined totalled 103,457 long tons.

Production during August, 1935, had been 82,434 tons, showing a gain of some 20 per cent. in a like month this year.

Vancouver Island mines handled about half of the output, with 50,481 long tons, as against 42,556 tons produced in the corresponding month last year.

Production from other areas was

RESCINDS ORDER TO CLOSE MINE WHEN STRIKE IS SETTLED

CORDOVA, Alaska, Sept. 17 (AP)—

Settlement of the seven-week strike of Copper River & Northwestern Railway employees resulted today in E. T. Stannard, president of the railroad and the Kennecott Copper Mine, rescinding his order closing the mine.

Miners were being brought here by airplane when the strikers decided to accept a railway company raise and a 50 per cent general pay increase arranged by A. H. Tandy, British consul here.

The Admiral is en route to his home at Hamilton, Bermuda, after an inspection of Canadian naval facilities in the Puget Sound region.

MISSIONARY RETIRES

TORONTO, Sept. 17 (AP)—Dr. Jonathan Gorofin, veteran missionary who served nearly half a century in India, has been retired, effective September 1. It was announced at a meeting of the Board of Foreign Missions of the Presbyterian Church today.

Change in population standing,

with Edmonton passing Calgary, came when the Ottawa Census Bureau announced Calgary's population as 83,304. A week ago Edmonton's population, according to 1935 federal census, was announced as 85,676.

EDMONTON LARGER THAN CALGARY NOW

EDMONTON, Sept. 17 (P)—Edmonton today became the largest city in Alberta and the ninth largest in Canada.
